

IEEE EDUCON 2021 - Austria

Call for Special Sessions IEEE Global Engineering Education Conference (EDUCON2021) Vienna, Austria

April 21st - 23rd 2021, Radisson Blu Park Royal Palace Hotel, Vienna (in case of a hybrid conference format)
<http://www.educon-conference.org/>

Special sessions, held in parallel with the general conference, are an integral part of the conference. They provide researchers in focused areas the opportunity to meet and present their work and offer a forum for interaction among the broader community of technology-enhanced learning, and engineering education worldwide. Special sessions' papers are required to meet the same standards as papers in the general conference and are published in the same conference proceedings.

Topics of interest are in all areas of

- Engineering Pedagogy
- Technology Enhanced Learning
- Facing Corona Crisis in (Engineering) Education
- Non-traditional Lab concepts in Engineering Education

and others. Proposals must be submitted to our submission server (<https://www.conftool.com/educon/>). Special Session papers will be reviewed by at least two members of the special session's program committee, and acceptance decisions will be made by the conference program co-chairs and Special Sessions Chair. Organizers of special sessions will work closely with the Special Sessions Chair and are expected to respond promptly and communicate regularly in order to maximize the potential impact of the track.

Proposals must be made using the **special session proposal template** (including the necessary information, such as title, organizer(s), special session's program committee, etc.), which is available at http://educon-conference.org/current/paper_preparation.php. If the proposal is accepted, it will be used as basis for the call for special session papers.

A special session will include **at least 5 papers** and the review process is under the responsibility of the person organizing the special session (i.e. session chair). Special sessions that fail to attract enough papers will be merged into the general conference or suitable alternative session.

Important Dates

- 05 Oct 2020** Submission of Special Session proposals
- 26 Oct 2020** Special Sessions notification and announcement
- 07 Dec 2020** Submission of complete papers for Special Sessions
- 13 Jan 2021** Notification of acceptance, Author Registration open
- 17 Feb 2021** Camera-ready submission
- 21 Apr 2021** Conference opening
